## Career Objective

---

Aspiring Full Stack Developer with hands-on experience building end-to-end web applications using the MERN stack, React, and TypeScript. Passionate about writing clean, scalable code and solving real-world problems through modern web technologies, with a growing focus on building performant, user-centric front-end experiences backed by robust APIs.

## Education

---

**Shri Ramswaroop Memorial College of Engineering and Management**

*Bachelor of Technology*

*Lucknow, Uttar Pradesh*

## Experience

---

**National Institute of Electronics & Information Technology (NIELIT)**

**6-Week Internship**

*MERN Stack Developer Intern*

*Lucknow, Uttar Pradesh*

- Completed an intensive 6-week internship focused on full stack web development using MongoDB, Express.js, React, and Node.js.
- Built and tested RESTful APIs with Express and Node.js to handle CRUD operations and connect front-end interfaces to a MongoDB database.
- Developed responsive user interfaces using React, translating requirements into functional, reusable components.
- Practiced version control and collaborative workflows using Git and GitHub for code management throughout the program.

## Projects

---

**Personal Portfolio Website** | *Next.js, TypeScript, Tailwind CSS*

- Designed and developed a personal portfolio website from scratch using Next.js and TypeScript to showcase my projects, skills, and experience to potential recruiters and collaborators.
- Built fully responsive, reusable UI components with Tailwind CSS, ensuring a consistent and polished experience across desktop and mobile devices.
- Structured the project using Next.js routing and TypeScript for type-safe, maintainable code, and deployed it live on Vercel.

**Logic Stack – Interactive Quiz Platform** | *React, JavaScript*

- Built an interactive quiz web application from the ground up using React and JavaScript to help users sharpen their logical reasoning skills through timed, topic-based quizzes.
- Implemented dynamic question rendering, score tracking, and instant feedback using React state and component-based architecture.
- Designed a clean, intuitive UI to keep users engaged and deployed the application live on Vercel for public access.
